

RAM *amps* OD39 (overdrive)

A simple transparent overdrive pedal designed to have minimum effect on your guitar tone. Will make your own valve amp sound like a cranked, 50s Tweed.. If you are the type of player that likes to move between clean and overdrive using your guitar volume knob—this is for you!!!

Is usually painted with just a '39' graphic.

All RAM pedal are hand made by Mike Pears here in Middlesbrough.
